Notes:

In the first table, the "% Agree" columns combine "Strongly Agree" and "Agree" responses. In the second table, the "% Less Problem" columns combine "Not a Problem" and "Small Problem" responses. In the Yes/No table, the "% Yes Most - All of the time" columns combine "Yes, all of the time" and "Yes, most of the time" responses.

Historically underserved (HU) includes parents who select any of the following races/ethnicities/ancestry: Black, Latino/Hispanic, Native American, or Pacific Islander.

Percentages are found by dividing the number of respondents who answered a particular way by the total number of respondents. Number of respondents can be found within parentheses.

Grade span percentages reflect respondents who stated that they had at least one child in that range. There is a chance that some respondents are double counted if they indicated multiple children in different grade ranges. Some parent demographics may also double count respondents as multiple selections are possible.
