Dear Jefferson Families & Community,

This email is part of a regular series of updates from the Jefferson Modernization Project team to keep you informed about the project. You can read previous updates <a href="here">here</a>. Since our last <a href="here">update</a> in June, the Project Team has held two community design workshops as part of a

## community design workshops.

The July 17th workshop included a project update, a discussion of Cultural Placemaking, and opportunities to provide input on design elements for the new school.

program to explore how they want to see their identities and culture represented in the new building.

The project team is halfway through the schematic design phase where they turn the concepts developed in comprehensive planning into designs for the various building sections and program areas. The team is also investigating soil and water retention conditions surrounding the building to prepare a stormwater design plan.
