

Leodis V. McDaniel Modernization

Modernization Highlights

Cafeteria / Commons and Crossroads Atrium

The new cafeteria/commons and crossroads atrium will provide a central hub for students and faculty, featuring a modern design with large glass windows and a central atrium area.

Science Wing

The new science wing will provide state-of-the-art facilities for research and teaching, including advanced laboratory equipment and a dedicated space for student projects.

Performing Arts

The new performing arts building will provide a dedicated space for music, theater, and dance, featuring a modern design and excellent acoustics.

Community Resources

The new community resources building will provide a dedicated space for community outreach and engagement, including a new library and a dedicated space for community events.

Athletics Facilities

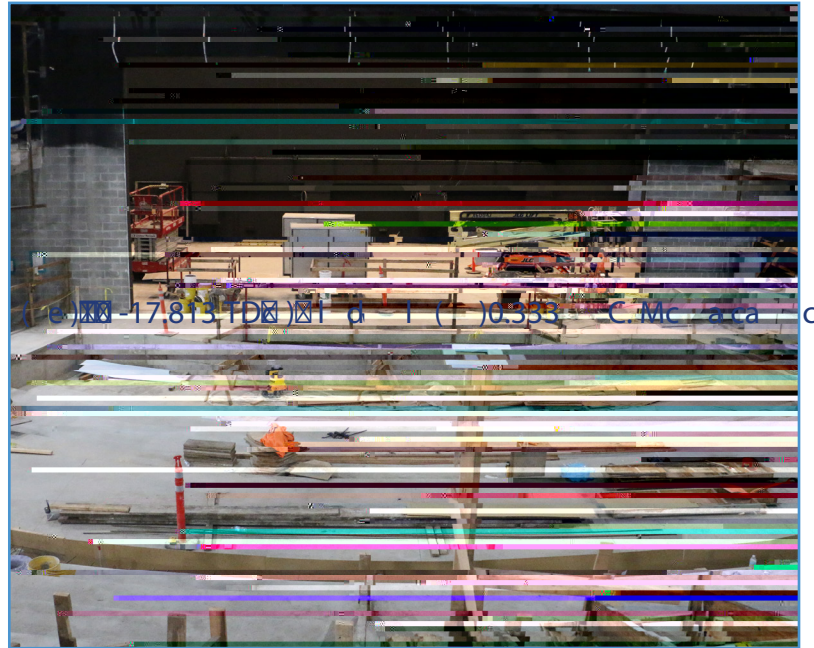

The new athletics facilities will include a 1,700-seat arena, a new gymnasium, and a new softball field. The updated field area includes a new softball field.

C

Construction Update

Construction is well advanced. The
 interior of the gymnasium is complete.
 The exterior of the building is also
 well advanced. For more information,
 contact the project manager at 083 (0) 111 1111.
